LEVIT & JAMES ANNOUNCES RELEASE OF BEST AUTHORITY 2.5

New Version of Table of Authorities Production Software Includes Multiple User-Requested Features and Enhancements

February 2, 2009 – Leesburg, VA... At New York LegalTech 2009 on February 2nd-4th, Levit & James, Inc. will be demonstrating version 2.5 of Best Authority, an upgrade of the industry's leading Table of Authorities (TOA) production software. In the 2 ½ years since its initial release, Best Authority has been selected by more than one third of the 250 largest U.S. law firms.

Mr. Ken Pendergast, Best Authority product manager, commented that, "Version 2.5 incorporates a substantial reworking of the software code. The result is that we were able to enhance both the performance and ease-of-use of the product." Best Authority 2.5 includes new functions for reviewing the TOA and the document, as well as additional formatting options.

Mr. Ian Levit, VP of Levit & James, remarked that, "Many of the changes in Version 2.5 were made in response to customer requests. These enhancements will continue to make Best Authority the fastest way to produce a Table of Authorities, as much as 4 to 8 times faster than using manual procedures or other TOA products. This is saving our customers and their clients a great deal of money."

Highlights of Best Authority 2.5 Enhancements

- Speed and reliability improvements for Review functions
- New review feature to display selected citations using color, instead of a dotted border
- New scheme option to include footnote/endnote notation with the TOA entry page number

- Word's Track Changes feature can now be enabled while running Best Authority
- Best Authority now supports rotated displays for monitors operating in portrait mode

All Best Authority maintenance customers are entitled to upgrade to version 2.5 at no additional charge.
